GOVERNMENT OF MYSORE

With reference to the second note which you have given me, let me assure you that it is no part of my duties of my secretaries to harass you in any way or to impede you in your work. It is merely, as I know it has been, the constant endeavour, both of real help by you in the work of administration, and from enquiries which I have made, from my own personal observation, I feel perfectly satisfied that my staff have in no way misused their position on my Personal Staff.

I can only give you this assurance, leaving it for you to accept it or resign.
